The latter life that none, say know,
JOHN FRANCIS WALLER.

R - NDOLPH COUNTY NOTES.

rops, Taxes and Politics—A Hope of the Locomotive Headlight. o the Editor of the Intelligencer. Sin:—I hope you will give space in your he guarter of Das Land von der Freiheit The husbandman complaineth much be ause of the abundance of rain. Corn is only a common average this season, and only a common average this season, and wheat will be almost a failure in Randolph and most of the adjoining counties. Our people are looking to the future with ani-mated hopes and high anticipations. There is a prospect of our county getting an out-let from this neck of the woods, and thus let from this neck of the woods, and thus closs forever the era known as the age of pack saddis, wind-mills, moccasins, &c.

Political fever is already beginning at this early day to act like a contagion. The merchant, the farmer and the sang-digger appear to be equally interested in the coming campaign. Some eay they expect that Grant will be the President, and that we will hereafter have no more Republican institutions. Others say that Blaine is Grant's choice, and has no show while the sound d—a say they'll have a good Democrat' or burst, though take it as a whole 1 thick our people are tired of culling land reassessors hefore they are ripe, and thereby gaining the displeasure of the land by gaining the displeasure of the land chark who has the right to infringe on the shark who has the right to infringe on the little of our gross vatters, and to pay his taxes once in five years. It is really too but such men should have equal taxation or more so whatever about the poor. We have a glorious constitution and a dog law. I think West Virginia can stand it no matter how things turn out.

Very Respectfully,

REPUBLICAN FREETIMSKER.

June 28, Lee Bell, Randolph Co., W. Va.

A d They Both Came to Grief.

While the prigoners were out in the jail yard, a few days ago, two of them, who were under sentence to the penitentiary, were heard comparing notes about as fol-

ows:
"I don't believe in proverbs," said prisoner No. 1; "It is beli-ving in proverbs that brings in here, When I was a boy I often seen folks pick up pins, and when I asked them why they did it, they said:

'If you see a pin, and let it lay,' "
You'll have bad luck all the day,' " "Yes, that's so! I've heard that myself."
"Well, it won't work. I was arrested the very same day, and not live got to go to tho pentiunflary for three years."
"What has that to do with picking up

"What has that to do with picking up pins?"

"Wel, you see, the pin I picked up was a diamond pin worth \$150. I believed in the proverb about having good luck if I picked up the pin in a showcase; but they telephoned for the police, and here I gm." The other prisoner thought for a moment, and then he said:

"When I come to think of it, proverba are what have brought me to this itx."

"How so?" asked the man who had picked up the pin for good luck.

"Well, I had heard about horse shoes bringing good luck, so I picked up horse shoes. Horse shoes were my weakness."

"Them horse shoes were my weakness."

"Them horse shoes were my weakness."

"Jess so! When I get out I'm not going to tamper with any more proverbs," remarked No 1.

"Jess so! When I get out I'm not going to tamper with any more proverbs," remarked No 1.

"Me neither," responded No. 2.

"Fall in, boys!" said the jailor, and the prisoners went back to their cosy retreats on the inside of the jail.

How Porkopolis Got It:

How Porkepolis Get It.

Office Logan for y Harper,

The nick-name of Porkopolis is of English origin, and was the brilliant inspira. gian origin, and was the brilliant inspira-tion of a sponsor who never say Cincin-nati. In the year 1825 there flourished in the Queen City a gentleman named Jones. He was President of the United States Branch, Bank and He was President of the United States Branch Bank, and was logally known as 'Bank Jones.' The pork trade had already taken such proportions as to rouse the financial enthusiasm of Bank Jones, and in a succession of letters he dilated upon the prosperity of the pork prospects of the Queen City. These letters were addressed to the Liverpool correspondent of the Cincinnati bank and this gentleman's insegination at length became fired by Bank Jones' enthusiasm. In a monaent of wild generosity he biled him to the studio of some Liverpoolian' Thorwaldeen and ordered the construction of what is set down in the sames as "a unique pair of model, hogs."

the construction of what is set down in the annals as "a unique pair of model hoga." These notable chigies were made of papier-mache, and were sent out to Gincinnati as a present, accompanied by the insertiption "destined in part at least to become famous." To Mr. Georgo W. Jones, as the worthy reports entaite of Porkopolie." The hoga have still a local habitation and a name. They add to the burden of life in the office of one of the largest "slaughterers" of Cincinnati, having passed by inheritance from Bank Jones down, from hand to hand, among the pork monarchs of to hand, among the pork monarchs o Porkopolis for nigh upon half a century.

N. Y., Democrat and Chronicle was published in this paper recently and has been pounded him: the subject of much conversation both in professional circles and on the street. Apparently it caused more commotion in Rochester, as the following from the same

papershows: Dr. J. B. Henion, who is well known no only in Rochester, but in nearly every part of America, sent an extended article to this of America, sent an extended article to this paper, a few days since, which was duly published, detailing his remarkable experience and rescue from what seemed to be certain death. It would be impossible to enumerate the personal enquiries which have been made at our office as to the validity of the article, but they have been so numerous that further investigation of the aubject was deemed an editorial necesity.

"Did you taking air, warner confu reover?"
"No, sir. I did not think it possible. It assessed in indeed, that so pronounced a case had, up to that time, ever been cut-day to the article to the validity of the article, but they have been so numerous that further investigation of the subject was deemed an editorial necessity.

of order, but I did not think it mean; any-thing serious."

"But have these common a liments any-thing to do with the fearful Bright's disease which tookse firm a hold on you?"

"Anything? Why, they are the sure in-dications of the first stages of that dreauful maiady. The fact is, few people know or realize what alls them, and I am sorry to say that too few physicians do either."

"That is a strange statement, doctor."

eay that too few physicians do either."

That is a strang statement, dector."
But it is a true one. The medical profession have been treating symptoms instead of diseaser for years, and it is high time it ceased. We doctors have been clipping off the twigs when we should strike at the root. The symptoms I have just mentioned or any unusual action or irritation of the water chann is indicate the approach of Bright's disease even more than a cough announces the coming of consumption. We do not treat the cough, but try to help the lungs. We should no waste our time trying to relieve the headache, stomach, pains about the body or other symptoms, but go directly to the kidnoys,

symptoms, but go directly to the kidnoys, the source of most of these aliments."
"This, then, is what you meant when you said more than one-half the deaths which occur arise from Bright's disease, is it doctor?"

you said more than one-ball the deaths which occur arise from Bright's disease, is it doctor?"

"Precisely. Thousands of so called disease are torturing people to day, when in reality it is Dight's disease in some one of its many forms. It is a Hydra-headed monstor, and the slightest symptome should strike terror to every one who has them. I can look back and recall hundreds of deaths which physicians declared at the time were caused by paralysis, apoplexy, least disease, pneumonia, malarial fever, and other common complaints, which I see now were caused by Bright's disease."

"And did all these cases have simple symptoms at firs?"

"Ryery one of them, and might have been cured as I was by the timely use of the same remody—Warner's Safa Cure. I am getting my eyes thoroughly open in this matter and think I am helping others to see the lasts and their possible danger also. Why, there are no end of truths bearing on this subject. If you want to know more about it go and see Mr. Warner bimgelf. He was siek the same as I, and is the healthiest man in Rochester to-day. He has made a study of this subject and can give you more facts than I can. Go, too, and see Dr. Lattimore, the chemist, at the University. If you want facts there are any quantity of them showing the slarming lucrease of Bright's disease, its simple and deceptive symptoms, and there is but one way by which it can be escaped."

Fully sarisfied of the truth and force of the Doctor's words, the reporter bade him good day and called on Mr. Warner at his establishment on Exchange street. At first Mr. Warner was inclined to be reticent but learning that the information desired.

establishment on Exchange street. At Mr. Warner was inclined to be retic but learning that the information desired was about the alarming increase of Bright's disease, his manner changed instantly and

was about the alarming increase of Bright's disease, his manner changed instantly and be apoke very earneally.

"It is true that Bright's disease has increased worderfully, and we find, by reliable statistice, that in the plat ten years his growth has been 250 per cent. Look at the prominent men it has carried off. Everett, sammer, Chase, Wilson, Carpenter, Bishops Haven and Peck, and others. This is terrible, and shows a greater growth than that of any other known compiaint. It should be plain to every one that something must be flone to check this increase or there is no knowing where it may end."

"Do you think many people are afflicted with it to-day who do not realize it, Mr. Warner?"

"Hundreds of thousands. I have a Striking example of this truth which has lust come to my notice. A prominent pro-lessor in a New Orlesus medical collegor was lessor in a New Orlesus medical collegor was feasible for Narred Sohe.

striking example of this truth which has just some to my notice. A prominent prolessor in a New Orleaus medical college was lecturing before his class on the subject of Bright's disease. He had various fluids under microscopic analysis, and was showing the students what the indications of this terrible malady were. In order to show the contrast between healthy and unhealthy fluids, he had provided a vial, the contents of which were drawn from his own person. 'And now, gentlemen,' he said, as we have seen the unhealthy indications, I will show you how it appears in a state of perfect health,' and he submitted his own fluid to the usual test. As he watched the results his countenance suddenly changed—his color and command both left him, and in a trembling voice he said; 'Gentlemen, I have made a painful discountered to the contrast of the results his countenance suddenly changed—his color and command both left him, and in a trembling voice he said; 'Gentlemen, I have made a painful discountered to the contrast of the results his countenance suddenly changed—his color and command both left him, and in a trembling voice he said; 'Gentlemen, I have made a painful discountered to the contrast of the results his countered to the command both left him, and in a trembling voice he said; 'Gentlemen, I have made a painful discountered to the contrast of the results his countered to the resu

left him, and in a trembling voice he said: 'Gentlemen, I have Bright's disease of the kidacyse, and in less than a year he was dead."
"You believe, then, that it has no symptoms of its own and is frequently unknown even by the person who is afflicted with h?"
"It has no symptoms of its own and very often mone at all. Usually no two people have the same symptoms, and frequently death is the first symptom. The slightest indication of any kidney difficulty should be enough to strike terror to any

should be enough to strike terror to any one. I know what I am talking about for I have been through all the stage of lettres disease. for I have been through all the stage of kidney disease."

"You know of Dr. Henion's case?"

"Yes, I have both read and heard of it."

"It is very wonderfol, is it no?"

"A very prominent case, but no more so than a great many others that have come to my notice as having been cared by the same means."

"Do you believe then that Bright's discase can be cured?"

"I know it can. I know it from the experience of hundreds of prominent persons who were given up to die by look men physicians and friends."

"You speak of your own experience, what was it?"

"A feerful one. I had felt languid and

"You sir. Didn't cost the recipients a penny."

"We'll, what kind of a way is that to run a silver mine?"

"Oh, don't you worry, Brown—not a bit. We've got to have some shares out in order to make an assessment, and next week we shall call for 70 cents on the dollar in order to meet the expenses of survey and manichinery. Don't you worry about me, Mr. Brown!"

Beautiful Women are made pallid and unattractive by functional irregularities, disorders and weaknesses that are perfectly cured by following the suggestions given in an illustrated treatise (with colored plates) sent for three letter postage stamps. Adddress World's Bispensary Mcdical Association, Buffalo, N. Y. 2014 September 1968. We shall call for 70 cents on the colored plates, sent for three letter postage stamps. Adddress World's Bispensary Mcdical Association, Buffalo, N. Y. 2014 September 1969. The superposts and Liver Complaint, you have a printed guarantee on every bottle of Biblioh's Yitalizar. It never falls to cure. Sold by McLain Brothers, and Alex. T. Young.

the case of Mr. H. H. Warner some three years ago, Dector?"
"Yes, sir."
"What did this analysis show you?"
"The presence of albumen and tube casts in great abundance."
"And what did the symptoms indicate?"
"A serious disease of the kidneys."
"Did you think Mr. Warner could recover?"

edy which cured him?"
"Yes, I have chemically snalyzed it and
upon critical examination, find it entirely
free from any poisonous or deleterious sub-

the subject was deemed an editorial necessity.

With this end in view a representative of this paper called on Dr. Henion at his residence, when the following interview occurred:

"That article of yours, doctor, has created quite a whirlwind. Are the statements about the terrible condition you were in, and the way you were rescued such as you can sustain?"

"Every one of them and many additional ones. Few people ever get so near the grave as I did and then return, and I am not surprised that the public think it marvelons. It was marvelous."

"How in the world did you, a physician, coine to be brought so low?"

"By neglecting the first and most simple symptoms. I did not think I was sick. It is true I had frequent headaches; felt tried most of the time; could eat nothing one day and was ravenous the next; felt dull, indefinite pains, and my stomach was out of order, but I did not think it mean; anything serious."

"But have these common allments any.

"But have these common allments anything serious."
